

REMARKS

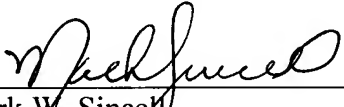

The title on the Specification does not match the title on the Declaration and Assignment. The serial number, filing date, and docket numbers on the Declaration and Assignment are correct, however, thereby removing any ambiguity. The filing receipt indicates the same title as the Specification, which is the intended title. As Applicants believe the declaration is the controlling document for specifying the title, the title was amended above to match that of the Specification.

If the amendment entered here does not resolve the apparent inconsistency, Applicants request notification and/or clarification so that the matter can be properly resolved to the satisfaction of the Office.

The Examiner is invited to contact Scott F. Diring at (713) 934-4070 with any questions, comments or suggestions relating to the referenced patent application.

Respectfully submitted,

Date: 1/27/06
